### HOW THE PROGRAM WORKS

*From first idea to finished delivery, we guide your parish through every step.*

1. **Explore:** Browse eligible products, personalization options, quantities, and starting prices.
2. **Connect:** Submit a Church Project Inquiry (online or attached). There is no commitment to purchase, and we'll respond within 1–2 business days.
3. **Create:** We work with you to finalize your design, quantity, and pricing. Once approved, we send your invoice.
4. **Produce:** A 50% deposit begins production in Bethlehem and starts the estimated 6–12 week delivery timeframe.

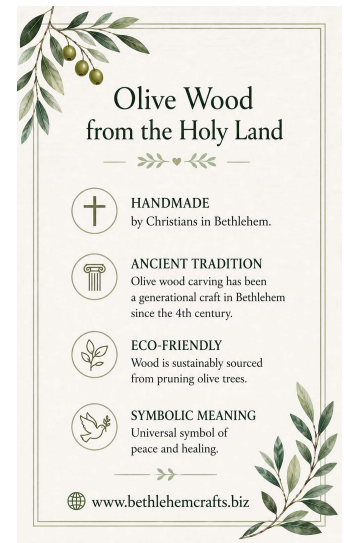

*Planning a fundraiser? Within approximately 1–2 weeks, we'll provide professional photos and promotional copy featuring your customized product so your parish can begin presales while production continues.*
5. **Deliver:** Your remaining balance is due when the order ships from the Holy Land. We inspect every piece, package each item with your customized authenticity card, and ship the completed order to your parish.

**Planning note:** Because production and international shipping originate in Bethlehem, regional conditions can occasionally affect schedules. We recommend ordering as early as possible and building flexibility into event deadlines. Supporting Bethlehem's Christian artisans through difficult periods remains central to our mission.

**Cancellation Policy:** Once deposit is received and production begins, orders cannot be cancelled. Customized items cannot be resold since they are specific to your organization.

## CUSTOMIZATION

Your design may incorporate a parish or event logo, church name, patron saint, anniversary or event date, prayer, Bible verse, or other suitable text. Bethlehem Crafts will provide a design proof for approval before production. The customized authenticity card can coordinate with your parish or event on the front, while the reverse explains the origin & significance of Bethlehem olive wood.
